ANNUAL NEWSLETTER

Volume 3; 11/2008

 RESTORE GRAND OPENING 

Habitat ReStores recycle overstocked, discontinued, new and used building materials donated by manufacturers, stores, contractors and individuals. The donated items are sold to the public at discounted prices or used in the construction of new Habitat homes. Each month, for every million people in a metro area, over 250 "houses" of usable building materials are thrown into landfills, which equals more homes than Habitat builds worldwide. The

Habitat ReStore addresses this problem by providing a place where these materials can be recycled and resold. Not only does the ReStore help the environment and make home improvement more affordable, the proceeds from the ReStore sales go toward building more Habitat homes and helping more families realize the dream of home ownership. Please keep us in mind for your home improvement needs – the money raised supports a great cause and you get a great deal!

Notes

We will be breaking ground this fall on another build. If you would like to volunteer, please e-mail or call us and we will add you to our volunteer list. Volunteer workdays are Saturday mornings from 8AM-?. No experience necessary. We have a wide range of volunteers from complete novices to professional contractors!
